THE EINDHOVEN OF THE FUTURE

IN THE EINDHOVEN OF THE FUTURE, WE WILL KEEP:

- 1 ... our beautiful parks and nature.
- 2 ... welcoming everyone. Diversity creates a colourful and open city.
- 3 ... looking out for each other. Because we are hospitable and create a warm atmosphere, everyone feels at home and we take care of each other.
- 4 ... PSV in the city centre. Because PSV is part of the city and connects people with one another.
- 5 ... the many social and sports clubs in the city. Clubs bring people together and create connections.
- 6 ... the cultural heritage. Historical buildings such as the Evoluon are an important part of our identity.

IN THE EINDHOVEN OF THE FUTURE, WE WILL KEEP:

7 ... creative places such as Sectie-C, TAC, PoPei and other inspiring workspaces. There could be even more places like these.

8 ... events and holidays such as Carnival, King's Day, Dutch Design Week and Glow. And also neighbourhood events, because they bring pleasure and connect people.

9 ... theatre, drama and music facilities. They bring colour to Eindhoven and are important to life in the city. Places such as Parktheater, Muziekgebouw and Natlab.

10 ... the library. Everyone is welcome in the library and it is a nice place to meet others.

11 ... the involvement of entrepreneurs and companies in developments in the city. Together, we continue to build the city.

12 ... our commitment to a strong Brainport region. It's where new ideas are formed. Where technology grows and companies and start-ups can develop.

13 ... the courage and the will to change. Eindhoven is a city where we try things out and make discoveries.

14 ... technology and creativity. We will keep making things because that is the strength of our city. We are proud of the Philips heritage and want to develop it further.

15 ... a safe and liveable city.

16 ... a wide range of different forms of education. That's right for the diverse residents of the city.

IN THE EINDHOVEN OF THE FUTURE WE WILL STRENGTHEN:

17 ...the greenery in the city. More nature, parks, gardens and biodiversity.

18 ... the atmosphere of the city. By making public places more pleasant and more beautiful.

19 ... the appearance of the city. A clean living environment and no litter in the streets. That makes the city more attractive for everyone.

20 ... the accessibility of the city. With attention to paving and loose paving stones.

21 ... cycling and walking paths, so that walking and cycling remain enjoyable. This contributes to good health.

22 ... public transport in the city. To keep the city accessible for everyone with affordable and reliable public transport.

23 ... the accessibility of the city. With better traffic flow. For example around the city centre and on the Ring road.

IN THE EINDHOVEN OF THE FUTURE WE WILL STRENGTHEN:

24 ... the housing market. Everyone, young and old, needs good, affordable living space.

25 ... the connection between people and organisations. We work together in the city and in the region.

26 ... the contact between different cultures. We are proud of our international character. By meeting each other, new connections are formed between residents with different backgrounds.

27 ... the social feeling in the city. Here, we feel connected to each other and help each other when there are problems.

28 ... meeting places such as community and neighbourhood centres, and the library where local people can meet up. This increases the contact between neighbours.

29 ... the chance to take part. Sports, healthcare and culture are available and affordable for everyone.

30 ... the health of residents. By preventing problems on time. And by encouraging a healthy way of living.

31 ... the care for people who are homeless. By providing good shelter and focus more on them.

32 ... involvement in the city. Residents actively share their ideas about developments in the city.

33 ... access to clear information. That way, residents feel a connection with the city.

TO THE EINDHOVEN OF THE FUTURE WE ADD:

34 ... transforming old industrial buildings into cultural hotspots. Such as creative studios, for example.

35 ... new museums, arts and cultural activities. Because culture connects.

36 ... spending enjoyable free time around greenery and water. There will be small beaches and meeting places near the River Dommel.

37 ... safe and fun play areas for children. That way, they can explore, have fun and develop their potential.

38 ... extra activities to bring residents together. This creates more community spirit and helps combat loneliness.

39 ... more attention to social skills in education. For example: learning how to handle money and how to deal with other people.

40 ... constructing buildings in a sustainable way. With materials that can be reused. That is good for people and nature.
